PROFILE	Passionate problem-solver, thriving in collaborative teams. Backend Development specialist with expertise in optimizing systems, integrating payments, fortifying security, and enhancing business logic. Committed to making impactful contributions			
EMPLOYMENT HISTORY				
Feb 2017 — Oct 2018	Web developer, Future English Center <ul style="list-style-type: none">I crafted a responsive design for seamless web accessibility and a mobile version enhancing usability across devices. Pioneering efficiency, I implemented a CRM system reducing students' result-check time. Innovatively connecting educators and parents, I established a messaging system for streamlined student monitoring. Proficient in JavaScript, WordPress, HTML, CSS, Express, REST API, Docker, and various other tools central to software development			
Dec 2018 — Nov 2022	Software Engineer, Kulmis Wholesales <ul style="list-style-type: none">Engineered automation with scripts, streamlining tasks and minimizing manual effort. Architected a modular microservices system, minimizing dependencies. Spearheaded a team, delivering a major software project on time and within budget. Ensured code excellence through reviews and mentored junior developers in best practices. Proficient in tools such as Next.js, JavaScript, TypeScript, Google Cloud, Nginx, Express, Stripe, and a myriad of others, specializing in robust application development with a focus on seamless payment integration			
Jan 2024 — Nov 2023	Software Engineer, Skillhob Ltd. <ul style="list-style-type: none">Boosted application speed using optimized caching and memory-efficient data structures. Engineered a scalable RESTful API, cutting latency by 27%. Innovated a real-time notification system for user updates. Pioneered an automated performance monitoring system, proactively alerting the team. Proficient in TypeScript, JavaScript, Next.js, React, Node.js, C++, AWS, GitHub, Nginx, Docker, and more.			
EDUCATION				
Nov 2014 — Jul 2018	GCSE, Imaamu Shaafici <p>I graduated from my secondary school with a commendable academic record. However, I believe that scores do not fully represent someone's true capabilities. In my case, I achieved an 'A' grade, emphasizing that my academic performance goes beyond just a numerical value</p>			
Nov 2018 — Nov 2022	BSc Computer Science, DIU <p>Pursued BSc in Computer Science at DIU. Acquired a robust understanding of computer science fundamentals, specializing in [specific areas or courses]. Applied theoretical knowledge to practical scenarios, graduating with a strong academic record and valuable problem-solving skills</p>
